

Phase 1

Aim - Phase one concentrate on developing children's speaking and listening skills. They are encouraged to listen to the sounds around them and to 'tune in' to different sounds. Songs and musical instruments are often used to help children.

Aspect 1 - General sound discrimination - environmental

The aim of this aspect is to raise children's awareness of the sounds around them and to develop their listening skills. Activities suggested in the guidance include going on a listening walk, drumming on different items outside and comparing the sounds, playing a sounds lotto game and making shakers.

Aspect 2 - General sound discrimination - instrumental sounds

This aspect aims to develop children's awareness of sounds made by various instruments and noise makers. Activities include comparing and matching sound makers, playing instruments alongside a story and making loud and quiet sounds.

Aspect 3 - General sound discrimination - body percussion

The aim of this aspect is to develop children's awareness of sounds and rhythms. Activities include singing songs and action rhymes, listening to music and developing a sounds vocabulary.

Aspect 4 - Rhythm and rhyme

This aspect aims to develop children's appreciation and experiences of rhythm and rhyme in speech. Activities include rhyming stories, rhyming bingo, clapping out the syllables in words and odd one out.

Aspect 5 - Alliteration

The focus is on initial sounds of words, with activities including I-Spy type games and matching objects that begin with the same sound.

Aspect 6 - Voice sounds

The aim is to distinguish between different vocal sounds and to begin oral blending and segmenting. Activities include Metal Mike, where children feed pictures of objects into a toy robot's mouth and the teacher sounds out the name of the object in a robot voice - /c/-/u/-/p/ cup, with the children joining in.

Aspect 7 - Oral blending and segmenting

In this aspect, the main aim is to develop oral blending and segmenting skills. To practise oral blending, the teacher could say some sounds, such as /c/-/u/-/p/ and see whether the children can pick out a cup from a group of objects. For segmenting practise, the teacher could hold up an object such as a sock and ask the children which sounds they can hear in the word sock. The activities introduced in Phase 1 are intended to continue throughout the following phases, as lots of practice is needed before children will become confident in their phonic knowledge and skills.
